2 of 2 review helpful A broad perspective of adventures in the spirit By Walker This book has such a wide array of stories in a genre that seems to be developing in the U S in the last few years If one has a spiritual orientation and has enjoyed fiction it becomes hard to read the kind of books that are oriented towards mystery stories high tension dramas tales of romance etc They just are rather hollow after your Pico Iyer Victor Pelevin Doris Dorrie and other renowned contributors join young award winners in what National Book Award winner Charles Johnson calls an embarrassment of literary riches sure to please fiction lovers of every stripe From the O Henry Award winning title story to visionary short shorts and barely fictionalized personal memoirs Nixon Under the Bodhi Tree is inventive exciting and unlike any collection before it From Publishers Weekly Buddhist fiction is a contradictory notion admits Wheeler a Buddhist practitioner and recipient of two O Henry awards Everything that seems to be happening to you and me is already like a fiction from a Buddhist s standpoint
