By Frank Simon : The Y2K Bug (The Y2K Bug Series #1) jul 19 2017nbsp;i speak of course of y2k dont laugh there are important lessons in the unlikely story of how the world came to mitigate the effects of a ticking fema nuclear weapon target map for state of california and nuclear war fallout shelter survival info and local group

preparations highly recommended visit The Y2K Bug (The Y2K Bug Series #1):

4 of 5 review helpful Clever yet fatally flawed By A Customer As a novel on y2k this book is about average Despite writing on a topic which is becoming all too common and should be out of possible variations and twists Simon manages to conjur up a believable plot This book is shot down though by many factors First of all it is completely predictable one can guess the plot after reading only 2 chapters The The Y2K Bug by Frank Simon fiction
