By Emma C. Clarke : Iamblichus: On the Mysteries (Writings from the Greco-Roman World, V. 4.) hellenistic astrology hellenistic and late antiquity astrologers built their craft upon babylonian and to a lesser extent egyptian

astrological traditions and dedicated to advancing the study understanding and individual experience of gnosis includes information about their lectures and tapes Iamblichus: On the Mysteries (Writings from the Greco-Roman World, V. 4.):

4 of 4 review helpful The Ultimate Text on Theurgy By Johannes Platonius It is owed to the shrewdly critical philosophical mind of Porphyry the former teacher of Iamblichus that the *De Mysteriis* was written it was indeed born from the competitive spirits of two of late antiquity's most eminent geniuses Now the title stems from an 11th century superscription made to the manuscript by Michael Psellus The need for a new English version of Iamblichus's *De mysteriis* an important attempt to give Neoplatonic theurgy a philosophical basis has been a pressing issue for many years This distinguished and reliable new translation by the team of Clarke Dillon and Hershbell based on the excellent Budacut text of Des Places is a very careful and idiomatic rendition of the original and will certainly remain the standard and authoritative edition for years to come Each About the Author Emma C Clarke teaches at The Latymer School in North London England John M Dillon is Regius Professor of Greek at Trinity College Dublin Ireland Jackson P Hershbell is Emeritus Professor of Classics University of Minnesota
